

Testimonial

Mettler-Toledo, Inc.

As you know, over the course of the past year, we have developed a number of elearning storyboards from which you have created elearning modules in both English and, based on our translations as submitted on your template, nine other languages.

I would like to thank you for the effort that you and your team have extended in demonstrating absolute professionalism throughout the course of the project. Although we were often faced with stringent deadlines and seemingly unmanageable pieces of the project, CommLab consistently collaborated with us to meet our requirements. We have successfully completed and launched this critical phase of our global elearning development project. Your team was instrumental in this success by:

- Accurately assessing our desire for an appropriate level of interactivity
- Exhibiting expertise in designing and developing that interactivity
- Delivering a quality product at each stage of the process
- Consistently completing each project stage on-time and within budget

Again, thank you for the professionalism and commitment that you and your team have shown in the effective completion of this project.

About Mettler-Toledo, Inc.

METTLER TOLEDO is a global manufacturer and marketer of precision instruments for use in laboratory, industrial and food retailing applications. The Company has strong worldwide leadership positions.

A significant majority of instrument sales are in segments in which we are the global leader. In addition to a broad product offering, we have one of the largest global sales and service organizations among precision instrument companies.
